HW

- Write a division for each situation. Choose if you must divide the number by one or by itself.

Carlota has 12 lempiras. She wants to buy candies that cost 1 lempira each. How many candies can Carlota buy?

$$12 \div \boxed{} = \boxed{}$$

She can buy _____ candies.

Carlota wants to share the candies she bought with 12 friends. How many candies will each friend get?

$$\boxed{} \div \boxed{} = \boxed{}$$

Each friend will get ____ candy.
