### Picking a language school

You are all studying English, right? I imagine it was difficult to choose a language school \_\_\_\_\_ to the huge amount of options available. It can be difficult to decide \_\_\_\_\_ you want a native teacher or not, whether you want to study online or in a language school. I think the \_\_\_\_\_ important thing to do is to make a list of your priorities, such as how long you want to study for and the reason behind your decision to study. \_\_\_\_\_ example, if you want to score extra points on a state entrance exam, you are probably looking for \_\_\_\_\_ fastest and most efficient way to do it. In this case, learning online might be the best, however, if you are learning from zero and you need to build your knowledge of the basics, you should definitely sign up for \_\_\_\_\_ language course with an experienced teacher.
