Dear [Friend's Name],

I hope you're doing well! I want to share my plans and predictions for next year, focusing on my career, family, and free time.

For my career, I think I **will to learn** new skills by taking courses and **might to start** a new project at work. However, I **willn't** change my job because I enjoy it. There's a chance I **may gets** a promotion, but it's not certain.

With my family, I **will trying** to spend more time with my parents and **might plans** a summer trip with everyone. My younger brother **won't leaves** home yet because he's still studying, so we **might have** more time together.

For fun, I **will watches** movies and try activities like hiking. I **won't wasting** as much time on my phone and **might to join** a sports club.

What about you? I'd love to hear your plans!

Best,
[Your Name]
