Name: _____

Podcast: Digital Footprint

1. What is a digital footprint?
A. A map showing your location online
B. A trail of all your online activity, like posts and comments
C. A list of all websites you've visited in the past month
D. A record of your internet usage stored by your device

2. What did the narrator compare a digital footprint to?

A. Breadcrumbs
B. Shadows
C. Puzzle pieces
D. Maps

3. What happens to online posts after they are deleted?

A. They are gone forever.
B. They disappear but can sometimes be recovered.
C. They can only be found if someone hacks your account.
D. They stay visible to your followers only.

4. What real-life consequence did Guest Teen 1 describe?

A. Someone losing followers on social media
B. A friend not getting a job because of an online video
C. A family member being embarrassed by an old post
D. A school banning phones after a viral video incident

5. Who can look at your digital footprint?

A. Only your friends and family
B. Hackers and scammers
C. Colleges, employers, and others researching you
D. Only people with special permission

6. Why is it important to think before you post?

A. Because posts can reflect poorly on you in the future
B. To avoid embarrassing your family
C. To protect your personal computer from viruses
D. Because it's illegal to delete old posts

7. What is one way to create a positive digital footprint?

A. Delete all your social media accounts
B. Only post pictures of your pets
C. Join and contribute to supportive online communities
D. Only use private messaging apps

LIVEWORKSHEETS

8. What online activity did Guest Teen 3 talk about?

A. Writing a blog about mental health
B. Starting a YouTube channel about gaming
C. Creating memes for their school group
D. Posting nature pictures on Instagram

9. What positive example did the chipmunk character give?

A. Raising awareness about saving forests
B. Encouraging people to recycle
C. Sharing dance tutorials online
D. Teaching others how to build treehouses

10. What is the main message of the podcast?

A. You should never share anything personal online.
B. Your digital footprint is permanent, so be careful and intentional.
C. The internet is dangerous and should be avoided.
D. Positive actions online are more important than avoiding risks.
