GETTING STARTED

Table 6.1 shows some ICT applications. Table 6.2 shows some uses of the ICT applications shown in Table 6.1.

Match the applications with the correct uses.

a	Communication applications.	1	Keeping patient and pharmacy records.
b	Recognition systems.	2	Using the global positioning system (GPS) for navigation.
c	Booking systems.	3	Checking passports at an airport.
d	School management systems.	4	Using electronic funds transfer (EFT) to pay bills.
e	Banking applications.	5	Using text messages to keep in touch with friends.
f	Computers in medicine.	6	Using software to diagnose an illness from a list of symptoms.
g	Expert systems.	7	Using point of sale (POS) terminals in shops and supermarkets.
h	Computer modelling.	8	Recording of learner attendance and performance.
i	Satellite systems.	9	Planning the sequence of traffic lights in a city.
j	Computers in the retail industry.	10	Buying tickets for a sporting event.
