

PART 3

You should spend about 20 minutes in this part.

Read the text below and complete the following table with **no more than three words and/or a number** from the text for each answer.

Wau Bulan

One of the most well-known traditional games in Malaysia is Wau Bulan, also referred to as moon kite. It is called Wau Bulan as it is a crescent-shaped kite. This game is easy where one chases the strong wind to rise the kite high. It will soar high and beautifully in the sky, leaving the others from below a chance to see it.

Originally from the states of Terengganu, Kelantan, Perlis, and Kedah in Peninsular Malaysia, this traditional kite originated in the north and east. There are numerous varieties of Wau Bulan, including Wau Ikan, Wau Puyuh and Wau Merak. Every moon kite has unique characteristics of its own. Aside from that, this specific kite is larger than a modern kite, spanning three metres, and it has been expertly and ingeniously inscribed by wau professionals.

Technology and the Internet can be effectively utilised to uncover this traditional piece. Some examples include online articles providing easily accessible information, instructional videos offering people the best possible kite-making experience, and educational videos highlighting the history and narrative of Wau Bulan.
