I have (1)_____ the cupboards and drawers
Tracked the least walked spots on the floor
Happy to be home safe and warm
As shadows by their feet
The odd (2)_____ treat
Quietly eating while they sleep
So here's where I'll be raising my kids
If I can find someone to start a family with
'Til then, I'll dream of the day my odds and ends (3)_____
I'll wake up, there'll be food on the stove
Forever, and never want for more

Is there cheese in the great beyond?
Rinds of parmesan, wine to water, night from (4)_____
Life gets shorter, teeth grow long
Mind me not, and I'll mind my own, and my mind's
Not one bite shorter or lesser than yours
Do I belong in right and wrong?
Nature I guess

One night one flung light through this place
So I run for (5)_____, over, under, left the rind out on the plate
Little heart racing and praying, "Something keep me safe"
I think it saw my face
Okay, one hungry day
Is nothing come what may
But then (6)_____ came inside for three nights
Left me grinding my teeth between my walls
And gripping my dreams tight
Curled up, kept my head up, and put up the (7)_____
I'll make it through again
I have before
Come on now, what's one more?

Is there cheese in the great beyond?
Rinds of parmesan, wine to water, night from (4)_____
Life gets shorter, teeth grow long
Mind me not, and I'll mind my own, and my mind's
Not one bite smaller or lesser than yours
Do I belong in right and wrong?
Nature I guess

Spring (8)_____ in the kitchen again
 So I crawled out on the wall and squinting
 Saw hope on the stovetop
 Just like I'd always imagined it
 More than I could eat
 My dreams were finally reality
 My (9)_____ had a happy ending
 They must want to be friends
 My stomach starts to turn
 With (10)_____, why does it hurt?
 My just dessert is served, dig in
 So I (11)_____ back to bed
 Something's not quite right
 Guess I'll just go rest my head
 So as I lay me down to sleep
 I expect no dreams
 And no sweet goodbye to me
 (12)_____ in the morning light
 I held on so tight
 For so long, it's just not right
 Let a (13)_____ out as I close my eyes
 Was that all there was to this?
 What's for the best?

 Is there cheese in the great beyond?
 What's the (14)_____ made of?
 Meet me there after I'm gone
 Life gets shorter, teeth grow long
 Mind me not, and my mind
 Held the same (15)_____ as the one in your eyes
 Do I belong in right and wrong?
 One dies alone, and why? Don't know
 Goodbye, so long, to (16)_____ in homes
 Nature I guess
