FULL NAME.....CLASS 10.....

ĐỀ 4

Choose the word that has the underlined part pronounced differently from the others.

- Question 1. A. human B. adopt C. carbon D. attend
 Question 2. A. organize B. gratitude C. greener D. dangerous
 Pick out the word whose stress pattern is different from that of the others. Circle A, B, C or D.
 Question 3. A. awareness B. organic C. energy D. appliance
 Question 4. A. reduce B. footprint C. adopt D. resource

Choose the best options to fill in the blanks.

- Question 5. The club hopes to raise public _____ of the environmental issues.
 A. awareness B. aware C. unawareness D. unaware
 Question 6. More and more people _____ a green lifestyle, which is good for themselves and the environment.
 A. adopt B. raise C. reduce D. reject
 Question 7. _____ farming is better for the environment because it doesn't use harmful chemicals.
 A. Sustainable B. Organic C. Friendly D. Environmental
 Question 8. The club was _____ to encourage people to recycle more.
 A. clean up B. set up C. put up D. set down
 Question 9. Listen! There's someone at the door. I _____ the door for you.
 A. am going to open B. am opening C. open D. will open
 Question 10. "Look at those dark clouds!" - "Yes, it _____ in some minutes."
 A. will rain B. is going to rain C. are going to rain D. is raining
 Question 11. Stephen William Hawking _____ on 8 January, 1942 in Oxford, England.
 A. born B. has born C. is born D. was born
 Question 12. Ho Chi Minh Mausoleum _____ weekly on Fridays, so we cannot visit there today.
 A. was maintained B. is maintained C. will be maintained D. has maintained
 Question 13. I'm not sure about it. Maybe your car _____ until tomorrow afternoon.
 A. will not be repaired B. is not going to be repaired
 C. was not repaired D. has not repaired
 Question 14. There are many simple ways to reduce the negative impact of using plastic on the _____.
 A. environmental B. environmentally C. environment D. environmental
 Question 15. Bamboo is considered to be one of the most _____ building materials.
 A. sustainable B. organic C. eco-friendly D. natural
 Question 16. As planned, the Christmas party _____ at Madison's next year.
 A. is going to be held B. will be held C. is held D. was held
 Question 17. You can save a lot of energy by turning off unnecessary household _____.
 A. chores B. tasks C. duties D. appliances
 Question 18. Turning off your appliances when they are not _____ use.
 A. on B. at C. in D. from
 Question 19. You should cut _____ on electricity usage to reduce your carbon footprint.
 A. down B. back C. at D. from

Read the following advertisement/announcement and mark the letter A, B, C or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks.

Asherton Garden Fair

The City of Asherton proudly presents a Garden Fair
 on the grounds (10) _____ Asherton Manor

Saturday, June 10

11:00 A.M. to 5:00 P.M.

Free admission includes

Children's games, crafts, and local bands

Shuttle buses from nearby Asherton Train and Bus Station

Plants and seeds for (11) _____ sale

Refreshments for purchase-hot and cold beverages, cakes, sandwiches, and more! Tours of Asherton Manor
 available for a small fee

Parking (12) _____ at the manor for \$10 per vehicle

For more information:

416-555-0187

- Question 20. A. on B. at C. of D. with

- Question 21.** A. the B. a C. an D. 0
Question 22. A. applicable B. comfortable C. convenient D. available

PROTECT THE ENVIRONMENT

Protecting the environment is crucial for the survival of our planet and all its inhabitants. The Earth provides us with the resources we need to live, but we must also take care of it in return. This includes reducing our carbon footprint by using renewable energy sources, conserving water, and reducing waste. One of the biggest threats to the environment is climate change, which (23) _____ by the emission of greenhouse gases. To combat this, we must switch to cleaner energy sources like solar, wind, and hydroelectric power. We should also reduce our reliance on single-use plastic items and (24) _____ as much as possible. Preserving wildlife and their natural habitats is also important for the environment. We must protect endangered species from extinction by reducing habitat destruction and preventing illegal poaching and hunting. It's essential to maintain a balance between economic growth and environmental sustainability to ensure a healthy planet for future generations. Overall, we must all (25) _____ our part to protect the environment.

- Question 23.** A. causing B. has caused C. causes D. is caused
Question 24. A. rescue B. improve C. throw away D. recycle
Question 25. A. do B. should C. have D. were

Mark the letter A, B, C, or D on your answer sheet to indicate the correct arrangement of the sentences to make a meaningful paragraph in each of the following questions.

Question 26:

- a. All in all, we should turn off the lights when we're not using them and take showers instead of baths to avoid running out of power and water
 b. By doing so, we can help our precious Earth.
 c. In addition, it would be a good idea to take showers instead of baths.
 d. By doing this, we can reduce our electricity usage
 e. Firstly, we can turn off the lights when we are not using them.
 f. Turning off the lights and taking showers instead of baths are two effective ways to help save energy at home.
 A. b-c-a-e-d-f B. f-e-d-c-a-b C. b-a-d-e-c-f D. f-e-d-a-c-b

Question 27:

- a. First, we should clean up all areas regularly.
 b. There are three things we can do to improve the environment in our school.
 c. For instance, we can put more rubbish bins in the school gate, in front of each building, or in the playground.
 d. For example, we can organise clean-up activities at weekends.
 e. Second, we ought to set up more rubbish bins.
 f. In conclusion, we can improve the environment in our school in many ways and even small actions can make a big difference.
 A. b-c-a-e-d-f B. b-d-e-a-c-f C. b-a-d-e-c-f D. b-e-d-a-c-f

Mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 28 to 33.

Air pollution is a major issue that has serious effects on our health. It is much worse in cities. Although some measures have been taken, more need to be done. One city that is taking big steps to reduce air pollution is Birmingham. It wants to create a Clean Air Zone that will improve (28) _____. It plans to do this by (29) _____. There are long-term plans over the next twenty years to build three new metro lines and (30) _____ as well as open new train stations and improve the railways lines. Other plans are already in place. The city council is encouraging people to cycle more and only use their cars (31) _____. It is also introducing a programme to help people and businesses buy electric vehicles. The council has also come up with ideas to help manage traffic. Their solutions aim to make traffic flow smoothly, so there are fewer traffic jams causing increased traffic fumes. The city centre will become a Clean Air Zone in June this year and people will have to pay to drive their cars here. (32) _____ and make the air cleaner for the people who live and work there. The city is already on its way to making the air cleaner for its citizens and improving (33) _____.

Question 28.

- A. the air quality for everyone in the city B. for everyone the air quality in the city
 C. the air quality in the city for everyone D. in the city the air quality for everyone

Question 29.

- A. improving the system public transport B. improving the public transport system
 C. to improve the public transport system D. improve the public transport system

Question 30.

- A. fast bus routes are created across the city B. create fast bus routes across the city
 C. we are created fast bus routes across the city D. to create fast bus routes across the city

Question 31.

- A. to be more than one person in each vehicle
 B. Having been more than one person in each vehicle

- C. is more than one person in each vehicle
- D. when there is more than one person in each vehicle

Question 32.

- A. This will reduce the amounts of nitrogen dioxide
- B. Which will reduce the amounts of nitrogen dioxide
- C. It will reduce the amounts of nitrogen dioxide
- D. Reducing the amounts of nitrogen dioxide

Question 33.

- A. its health
- B. this health
- C. their health
- D. our health

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 34 to 38.

The most obvious advantage of living green is that it helps (34) _____ environmental pollution. This is done by practising the 3Rs. The first R means choosing products very carefully to reduce waste as much as possible. Reusing involves the repeated use of items. The third R is about separating materials (35) _____ can be recycled and later used for a new purpose. There are also economic (36) _____ to living green. Reducing the use of energy and water can help save money on household bills. Furthermore, reusing products and materials is another way to make saving. It helps save on production costs (37) _____ creating new products wastes materials and is expensive. Recycled products also last longer than new ones, making them a better and more eco-friendly option. Lastly, going green offers health benefits. It reduces air pollutants by making the air we breathe cleaner and healthier. This means fewer diseases and doctor's appointments. (38) _____ way to improve your health is to purchase organic foods and green products for your household. They don't use harmful chemicals that can lead to health issues. In turn, you are also supporting responsible farming methods that protect the environment.

- Question 34.** A. reduce B. increase C. improve D. recycle
Question 35. A. where B. when C. who D. that
Question 36. A. products B. benefits C. profits D. advantages
Question 37. A. since B. nor C. or D. either
Question 38. A. Others B. The others C. Another D. Other

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions.

The Zookeeper

My name's Mark Porter. I've been interested in the natural world since I was very young. I used to keep insects, and I spent a lot of time drawing them. After I finished school, I went to work in a pet shop - that was great fun, but I knew I had to go to college if I wanted a better job. So I went to university to study Biology and then got a job in Florida working at a sea-life centre, looking after the dolphins.

While I was working there, I saw an advertisement for my current job - a keeper for the fish department at a zoo in California - and applied. Although it was for the same money, I was pleased when they immediately offered me the job because there are lots of different activities I'm involved in here. As part of my job, I get to do research, and I manage an education centre where I tell people of all ages about what they can do to protect fish and animals.

People think that my job is exciting because I go diving as part of my research work on sharks. However, I work long hours, and I worry if I have to call a medical specialist to come and look after a sick fish. Conditions at work can be uncomfortable too, as a lot of the fish I look after bite, so I have to be careful. Then there are the visitors. Some are OK, but some try to touch the fish or put sweet wrappers in the water - that makes me angry. However, my job is very rewarding, and I hope that you'll think about working with animals, too.

Question 39. What is the writer trying to do in this text?

- A. how people can protect animals
- B. give an account of one day in his life
- C. describe some of the people he works with
- D. encourage people to have a career with wildlife.

Question 40. What can a reader find out from this text?

- A. what subject Mark needed to learn to get a better job
- B. how many hours a day does Mark have to work
- C. how long Mark has been keen on animals
- D. where you can find the best sea-life centres

Question 41. The word "they" in paragraph 2 refers to _____.

- A. activities
- B. animals
- C. people
- D. sharks

Question 42. How does Mark feel about visitors to the zoo?

- A. nervous that a fish might hurt them
- B. annoyed when they don't behave well
- C. upset when they take the fish out of the water
- D. sad when they don't ask questions

Question 43. The word "rewarding" in the passage is closest in meaning to _____.

- A. disappointing
- B. satisfying
- C. unacceptable
- D. inadequate

Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions.

There are many ways that recycling helps the environment, and even the smallest step can have significant results.

The environmental problem of landfills is a difficult issue to fix. As more waste is put into landfills, the bigger the problem gets. Wastes that are not biodegradable or are slow to decompose can remain in landfill sites for centuries, often emitting gases that could be harmful to the environment. Keeping paper out of landfills is just one way that recycling helps the environment.

Recycling items often uses less energy than manufacturing products from natural sources. Making paper that is using recycled pulp, for instance, is much less energy intensive than using new wood. While there are benefits to growing trees because of the carbon dioxide that they consume, it will be the damage that is done to the environment by putting paper in landfills and using energy to produce new items.

Waste in landfills emit gases as it rots. This can pollute the environment. Anyone who has passed a landfill site during hot weather will be familiar with the unpleasant smell and flies that can be found near a landfill site. Reducing the items in landfills will help to reduce the pollution that it causes. Recycling wastes also typically emits less carbon dioxide and carbon monoxide, thus reducing the carbon footprint of a product.

Another benefit of recycling is that there is often a significant cost saving to be made when using recycle goods. Recycling leaves and grass, for instance, is a great way to make compost. Using homemade compost is obviously a lot cheaper than buying compost and this is a useful way to save money. Saving money through recycling ultimately helps the environment.

Recycling is just one of many ways that we can help the environment. Every step that we take, however small, is one more towards helping and supporting the environment in which we live. Getting everyone involved, from children to adults, can help produce a better environment for many generations to come.

Question 44. All of the following sentences are true EXCEPT _____.

- A. recycling wastes also helps us to limit harmful gases.
- B. there are many ways that we can do to help the environment.
- C. even the smallest thing we do might have significant results in protecting the environment.
- D. getting adults involved in recycling can help to have a better environment.

Question 45. Using homemade compost is cost-effective as _____.

- A. it is a good way to make compost at home.
- B. we can recycle leaves and grass
- C. it is both economical and good for environment
- D. it can prevent unpleasant smell or flies

Question 46. Recycling can help to solve the problem of pollution because _____.

- A. it reduces the carbon footprint of products
- B. it helps people stay far away from landfill sites
- C. it helps people forget the unpleasant smell and flies
- D. it reduces biodegradable wastes at households

Question 47. The word "that" in the passage refers to _____.

- A. new wood
- B. paper
- C. carbon dioxide
- D. new items

Question 48. The word "rots" in the passage is closest in meaning to _____.

- A. decomposes
- B. dissolves
- C. solidifies
- D. constructs

Question 49. The following statements are the benefits of recycling paper EXCEPT that _____.

- A. recycling uses less energy than manufacturing new products
- B. recycling helps use more energy to produce new items
- C. recycling helps protect trees that can consume carbon dioxide
- D. recycling helps reduce wastes at landfill sites

Question 50. The environmental problem of landfills is a difficult issue to fix because _____.

- A. wastes can make the soil biodegradable or slow to decompose
- B. we have difficulty keeping paper out of landfills for recycling
- C. the problem gets bigger and more waste is put into landfills
- D. wastes can remain in landfill sites for centuries, often emitting harmful gases
