Google Play is a music app.	True	False	Not Mentioned

Module 6 – Spotify

Script:

Joaquin: Hey Andrea! What's up? What are you listening to?

Andrea: Hey Joaquin! It's my playlist on Spotify.

Joaquin: Oh, Spotify! I've heard of that. How does it work?

Andrea: It's an app where you subscribe and can listen to your favorite music or podcasts. You can choose the songs and artists you like and put them in a playlist for you to listen to. And Spotify can even recommend songs you might like according to your personal tastes.

Joaquin: Does it cost anything?

Andrea: Well, there's a free version and a premium version. The free version has ads and limits, but the premium version is free.

Joaquin: Oh, I see. And does it have any other features?

Andrea: You can interact with your friends and share playlists.

Joaquin: Wow, that's cool! And are there any other music apps you know of?

Andrea: Well, there's Apple Music for iPhones and Google Play for Androids. They work in similar ways.

Joaquin: Wow, I need to get up to date on the latest music apps! Thanks, Andrea!
