Reading

7. Read the article and complete the gaps with paragraph headings a–f. (5 points)

1 b These days, identity theft through the internet is a very real danger. While some people are cautious about the websites they use and the information they share, others are not.

- 2 ____ The criminals who target us know exactly what they are looking for. They also have a very clear idea of how they will use our information. The biggest problem is that we don't understand exactly what information they are trying to find. Perhaps if we did, we'd be more careful when using the internet.
- 3 ____ So, what can we do to keep our identity safe online? Well, the first piece of advice would be to install anti-virus software on the equipment you are using and to make sure it's kept up-to-date.
- 4 ____ Second, it's important to create new passwords for different websites. Never use the same one for two sites or purposes, especially the one which accesses your main email account.
- 5 ____ Remember also to only use secure online sites when you shop online and to use public wi-fi with extreme caution. People don't realise that when they're using this, it is incredibly easy for hackers to access their data. You should only use wi-fi hotspots* for things you don't mind being public.
- 6 ____ So, the next time you're about to do some online banking or type in a password for a social networking site, stop and think. Ask yourself if you really want all the information you're about to share to go public.

** a physical location giving wireless internet access*

- | | |
|-------------------------|---------------------------|
| a) Diversify access | d) Remember where you are |
| b) A modern threat | e) Public vulnerability |
| c) Discriminate thieves | f) Protect your equipment |

8. Read the article again. Mark *True (T)* or *False (F)*. (5 points)

1. People are becoming more careful about how they use the internet. ***F***
2. People don't know what these criminals want so they don't consider the dangers.
3. Regular updates are optional if you want to keep anti-virus software effective.
4. Don't worry if you use the same password for a few less important sites.
5. Using wi-fi hotspots will help make your information accessible to everyone.
6. It's a good idea to always consider what information you are sharing with everyone.
