Earthquake in Haiti

The Haiti earthquake in 2010 is one of the worst disasters of the 21st century. On January 12th, 2010, an earthquake hit Port-au-Prince, capital of Haiti at around 4:53 p.m. More than 230,000 people were killed, and another 300,000 were hurt because they had no idea the earthquake was coming and could not escape in time. More than 600,000 people left Port-au-Prince to stay with families outside of the capital. The communication lines were lost, and roads were closed. The earthquake destroyed 60% of the city's government buildings, and 80% of the city's schools. It caused between \$ 7.8 billion to \$ 8.5 billion in damage. After the earthquake, the international aid organizations and people from other countries provided medicine, food, and water to Haitian people. Most Haitian people are farmers, and they could not grow anything because of the disaster. Haiti has had to face more difficulties since the earthquake in 2010.
