THE FUTURE IS NOW!

What do you think technology (1) _____ be like in 2070? Well, we can look at what's happening now and make predictions. We're sure AI or Artificial Intelligence (2) _____ be part of our daily lives. We (3) _____ wait for anything because our house will know what we need. When we get home, it will (4) _____ on the air conditioning or the heating and the lights. It will open the fridge and make us a snack. All without asking! Who knows? It (5) _____ even pick up our dirty clothes and put them in the washing machine. We aren't sure but it (6) _____ answer our calls for us when someone rings.

However, we'll need really fast internet to do all this. 5G (7) _____ be enough. By then, we might (8) _____ 9 or 10G. Cities will be smarter, I mean, cars, buses and other kinds of transport won't (9) _____ drivers. (10) _____ cities be as crowded as they are now? Perhaps not, some people (11) _____ live and work on the moon. But I'm certain we (12) _____ be able to book a cheap holiday to Mars.
