**V. Read the passage:**

**A. Decide the sentences True or False: (1pts)**

Martin Blane is a farmer in Cornwall, in England. One summer, Martin noticed that something strange was happening on his land. He was standing on a bridge and looking at the wheat in his fields when he realised there was a strange picture in the wheat.

'I looked and saw lots of circles in the wheat. The line of circles went across the field from the gate all the way to the end by the stream. They were very big. Other circles made a kind of picture in the wheat. I thought aliens had come from space.'

During that summer, and all through the 1970s, more strange pictures appeared in wheat fields on farms in the south of England. Nobody knew what these 'crop circles' were. Photographs of them appeared in all the newspapers and people thought the subject was gripping. Many thought that aliens had come to Earth and made the pictures.

But then in the 1990s two men admitted to making the crop circles. They made a plan for a picture and then they went out secretly in the night to make their picture in the fields. Some people think they were creative and the crop circles were entertaining, but their actions were illegal. The men were on land that didn't belong to them. Farmers were angry because their crops were damaged. The two men promised to stop.

However, the crop circles are still appearing. On the Internet, you will find photographs of crop circles on farms in different countries around the world. Some people believe the two men were lying, and the crop circles are really made by aliens.

25. Martin Blane noticed that the animals in his fields were behaving strangely. \_\_\_\_\_
26. The big circles went from one end of the field to the other. \_\_\_\_\_
