Caterpillar 1: Which numbers can the caterpillar digest?

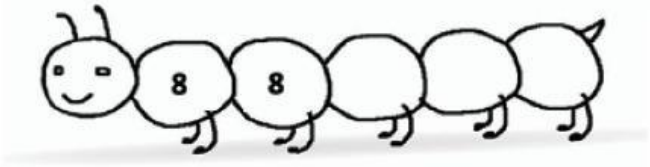

The caterpillar can digest a special number. This specific number comes in its fifth tummy. The sum of the numbers in the first tummy and the second tummy will come in the third tummy of the caterpillar and the sum of the numbers in the second and the third tummy will come in its fourth tummy. Similarly, the sum of the numbers in the third and fourth tummies will come in its fifth tummy respectively. Can you tell which numbers the caterpillar can digest?

Note: Before giving this worksheet to children, teacher can do similar questions on the blackboard with the whole class.
