

Questions 27 – 32

For each question, write the correct answer.

Write **one** word for each gap.

The school skiing trip by Molly Green, Class 9B

Last week, a group of students from my school went on a skiing trip. We travelled to the mountains by coach. I wasn't looking (27)..... to the journey, but actually it was fine. I was (28)..... busy chatting that I forgot I usually feel ill on long journeys!

We were away for four days, and skied every day. We were divided into groups depending (29)..... our level – I was in the beginners' group. Our teacher was great. On the first morning, (30)..... of us could even stand up on our skis, but after just a few hours we were all happily skiing down the less steep parts of the mountain.

Everyone met up in the evenings for dinner, and we had fun telling (31)..... other about our experiences.

If you enjoy skiing, or even if you've never skied before, maybe you should sign (32)..... for next year's trip. I loved it!
