Exam tips
Don't just look for individual words with similar meaning in the text and the options. When you choose your answer, make sure the whole meaning makes sense.

Guidance for candidates
In Reading Part 1 candidates must read five short texts and match them with the correct option A, B or C.

They should think of what **kind of text** they are reading. For example, texts 1 and 3 are both notices. What kind of text is text 2?

☐ a road sign ☐ a label ☐ an advertisement ☐ an email or text message

They should also think of the **purpose** of each text. For example, what is the purpose of text 4?

☐ to warn Jane about something ☐ to advise Jane to do something ☐ to remind Jane to do something

Some texts may contain words candidates don't know yet. In this case:
- they should check which two options are wrong, or
- they can try to guess the meaning from the kind of text and situation they find it in.

For example, what does the word 'ship' mean in text 5? _____
