

1. **Who invented the popsicle, and how was it discovered?**
  - A) An ice cream factory owner
  - B) A child experimenting with flavored ice
  - C) A chef in a restaurant
  - D) A scientist working on freezing technology

---
2. **What is the SafeWander Sock Sensor, and who created it?**
  - A) A device for tracking kids, created by a teenager
  - B) A sock with GPS for runners, created by a college student
  - C) A sensor for detecting wandering in elderly people, created by a child
  - D) A fitness sock monitor, created by a young athlete

---
3. **At what age did George Nissen invent the trampoline?**
  - A) 12
  - B) 16
  - C) 22
  - D) 18

---
4. **What inspired Richie Stachowski to develop Water Talkies?**
  - A) His love for scuba diving
  - B) His difficulty communicating underwater while snorkeling
  - C) His fascination with marine biology
  - D) A school science project

---
5. **How does Jonah Kohn's invention help deaf individuals experience music?**
  - A) It uses light pulses to mimic sound
  - B) It translates music into vibrations through a handheld device
  - C) It creates subtitles for musical tones
  - D) It sends sound waves directly into the ear

---
6. **Which of these inventions was created by accident?**
  - A) The trampoline
  - B) The SafeWander Sock Sensor
  - C) The popsicle
  - D) Water Talkies

---
7. **What common trait do all these inventors share?**
  - A) They were all science prodigies
  - B) They identified simple problems and created innovative solutions
  - C) They received formal engineering training
  - D) They worked with large companies from the start

---
8. **How did these young inventors turn their ideas into successful products?**
  - A) By collaborating with schools
  - B) By presenting their ideas to companies and investors
  - C) By building prototypes with professional engineers
  - D) By crowdfunding their projects

---
9. **What impact have these inventions had on society?**
  - A) They have solved niche problems for small groups of people
  - B) They have made life more fun and easier for many people
  - C) They have introduced luxury innovations
  - D) They have inspired only children to invent

---
10. **Can you think of other inventions created by children that became successful?**
  - A) Slime kits
  - B) Crayola crayons
  - C) The calculator
  - D) The popsicle
