**Part 3**

*Read the text below and answer questions 17 to 24.*

**River Carnival in Kampung Telaga Tujuh**

On 2 June, Kampung Telaga Tujuh was a hive of activity. There was a sense of excitement. The villagers were gathered at the community hall for the River Carnival project. The aim of the carnival was to educate the people on the importance of clean rivers. The carnival also aimed to teach the villagers the value of working together to clean up the rivers.

The carnival kicked off at 9.00 a.m. and ended at 6.00 p.m. Many fun-filled activities were held. These included a river clean-up activity, planting of shrubs and entertainment programmes.

The objective of the river clean-up activity was to remind people that rivers cannot be treated as dumping grounds. People must stop polluting rivers with household and industrial wastes. They should not dispose their rubbish carelessly. They should have the civic sense to maintain the cleanliness of rivers.

Rivers should also be appreciated for their beauty. A dirty river breeds Aedes mosquitoes which can cause a dengue outbreak and other diseases. It is also an eyesore and the stench can be unbearable. A river clogged up with rubbish will emit a foul odour.

On the other hand, a clean river beautifies the surroundings. People can have picnics or go for leisurely strolls along the river bank.

**Questions 17 - 24**

Complete the following table.

Choose **no more than three words and/or a number** from the text for each answer.

For each question, write your answer in the space provided on your **answer sheet**.

(8 marks)

#### Part 4

Read the text below and answer questions 25 to 34.

## HAVING A HAPPY FAMILY

Family is a great part of every human life. Every man is incomplete without a family. Family plays a significant role in human life. A family is like a tree; there are many stems in the tree. Same as a man life, there are so many relations in a family such as parents, wife, and children who live together in one same house

Family members share stories and secrets with each other. It makes the members closer to each other. A good family is important for the society because the real family makes a good community and a good society makes a good country.

Everyone wants a good family, where all family members understand each other better. As a good member of the family, we should care for each other. Should any problem happen to any other family member, we should not take it for granted and we have to support each other.

Behind a happy man is a supportive family who would always have his back. A happy man will work happily, his behaviour will be better, and he usually tends to be responsible towards the society and nation.

Therefore, it is undeniable that having a good family is the root to all the happiness in this world!
