S

Male and females can have manes.

Spend most of their time eating.

The mane protects them when they fight.

You can hear them roar up to 7 miles away.

Can roar louder than a lion.

Cannot have the same stripe pattern.

Are scared of water.

Can swim well, but only for short distances.

TIGERS

BEARS

They all have approximately the same size.

Hibernate during summer.

Hibernate to save energy.

Can be the size of a small dog.

Their ears keep them cool.

Their trunk can only pick up big things.

Have short noses.

Have a very good memory.
