

Weather vs. Climate

1. High Pressure helped make **today** sunny.
2. The wind speed increased with the **arrival** of a thunderstorm.
3. Amarillo Texas has a **history** of being one of the windiest cities in the country **over the past decades**.
4. Hawaii is **usually** mild and receives a lot of rain.
5. In the **past 100 years**, the amount of rain received in March has increased dramatically.
6. The **average** high temperature in 2013 was greater than the average high temperature in 2012.
7. Freezing temperatures along with precipitation gave us a Snow **Day** last January.
8. A warm front is moving through Dallas, Texas **this week**.
9. High altitude has caused Denver, Colorado to have snow **every winter** for the **past 200 years**.
10. **This week** the freezing temperatures have Houstonians busy preparing for the cold front that is moving through the area.
