

Our Community

A **community** is a place where people live, work, play, and attend **school** and **church**.

A community must be **clean** and **safe** to protect the lives of the people who live there.

Many **people** work to keep the community **healthy** and safe. Some examples are teachers, policemen, pastors, doctors, nurses, farmers, taxi and bus drivers, carpenters, plumbers, crossing guards, entrepreneurs and many more.

Safe practices in communities include education, worship, sporting events, clean-up campaigns, and special celebrations.

Unsafe practices in communities include drug use, violence, vandalism, accidents, crime, and abuse.
