

## Conditionals 0,1,2

### I. Complete the sentences using IF, like this:

**Example:** The patient doesn't follow the doctor's advice. Her chances of success decrease.

*If the patient followed the doctor's advice, her chances of success would increase.*

- The embryologist doesn't monitor the embryos daily. They \_\_\_\_\_ (not develop) properly.
- If patients \_\_\_\_\_ (have) better access to fertility clinics, more couples \_\_\_\_\_ (receive) the help they need.
- The nurse \_\_\_\_\_ (remember) to confirm the medication dose if she \_\_\_\_\_ (double-check) the prescription.
- If the patient \_\_\_\_\_ (know) about her low ovarian reserve earlier, she \_\_\_\_\_ (consider) egg freezing sooner.
- Doctors \_\_\_\_\_ (avoid) errors if they \_\_\_\_\_ (use) electronic medical records consistently.
- If the laboratory \_\_\_\_\_ (maintain) better air quality, the embryos \_\_\_\_\_ (have) a higher survival rate.
- Patients \_\_\_\_\_ (feel) less stressed if clinics \_\_\_\_\_ (offer) more psychological support
- If the sperm sample \_\_\_\_\_ (be) healthier, the fertilization rate \_\_\_\_\_ (improve).
- The transfer process \_\_\_\_\_ (be) smoother if the catheter \_\_\_\_\_ (fit) perfectly.
- If the patient \_\_\_\_\_ (follow) a fertility-friendly diet, she \_\_\_\_\_ (improve) her chances of implantation.

### II. The patients in the fertility clinic have hypothetical situations. Write sentences with IF, like this:

**Example:** The clinic doesn't have advanced equipment. It cannot perform genetic testing.  
*If the clinic had advanced equipment, it would perform genetic testing.*

- The patient's insurance doesn't cover fertility treatments. She cannot afford the procedure.
- If the embryologist \_\_\_\_\_ (use) cutting-edge technology, the embryos \_\_\_\_\_ (develop) more efficiently.
- The clinic \_\_\_\_\_ (attract) more international patients if it \_\_\_\_\_ (advertise) its success rates better.
- If Mr. and Mrs. Smith \_\_\_\_\_ (know) about fertility preservation, they \_\_\_\_\_ (freeze) embryos earlier.
- The couple \_\_\_\_\_ (be) more optimistic if they \_\_\_\_\_ (see) positive success stories.
- If the fertility drugs \_\_\_\_\_ (cost) less, more people \_\_\_\_\_ (start) their treatments sooner.
- The patient \_\_\_\_\_ (trust) the clinic more if the staff \_\_\_\_\_ (communicate) more effectively.
- If there \_\_\_\_\_ (be) fewer delays in scheduling, couples \_\_\_\_\_ (feel) less anxious.
- The embryo \_\_\_\_\_ (implant) successfully if the uterine lining \_\_\_\_\_ (be) thicker.
- If the partner \_\_\_\_\_ (support) her emotionally, the patient \_\_\_\_\_ (cope) better with the stress.

### III. Write sentences about these fertility treatment scenarios using IF, like this:

**Example:** The clinic charges high fees. Many patients don't complete their treatments.  
*If the clinic didn't charge such high fees, more patients would complete their treatments.*

1. The patient doesn't disclose her medical history. (not understand her treatment / not choose the right protocol)
2. Couples don't seek fertility advice early enough. (not diagnose issues in time / not start the right treatment)
3. The embryologist doesn't wear gloves during the procedure. (risk contamination / harm the embryos)
4. The clinic doesn't invest in cryopreservation tanks. (not store embryos safely / lose patient trust)
5. Patients don't follow the medication schedule. (not achieve proper hormone levels / delay the cycle)
6. The doctor doesn't explain the treatment thoroughly. (patients feel confused / not trust the process)

## English for Medical Professionals – Assisted Fertilization

---

7. The team doesn't attend regular training sessions. (not keep up with innovations / lower the success rate)
  
8. The patient doesn't ask questions during consultations. (not feel confident / make wrong decisions)
  
9. Clinics don't collaborate with genetic counselors. (miss hereditary conditions / lower patient satisfaction)
  
10. The nurse doesn't prepare the procedure room properly. (delay the procedure / cause unnecessary risks)
