

## 1 Read and match. Answer question 6.

### Martha's proposal

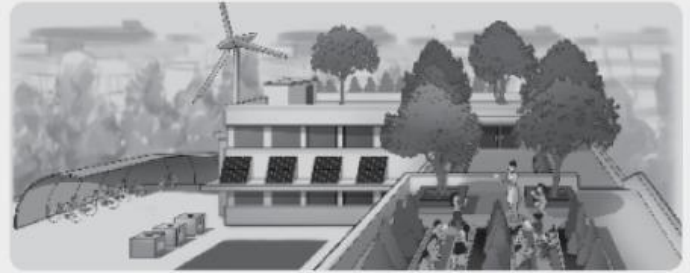

We all want a better future. Schools in our neighbourhood need to change! I propose these ideas:

#### 1 School buildings

- use energy from the sun, wind and water for electricity
- build 'flexible' spaces – for example, a classroom that can change into a theatre
- have gardens on the tops of buildings

#### 2 School environment

- use more recycling containers
- collect rainwater and use for the garden
- create more green spaces
- a wi-fi zone across the school, so students can work anywhere
- new spaces for sport, culture and education – for example, mobile libraries

#### 3 Transport to school

- build more bicycle lanes around the school
- build a pedestrian area around the school
- give prizes to students who use ecologically friendly transport

We must start the change now!

- 1 Martha's proposal is about how
- 2 Martha uses bullet points and short phrases
- 3 A 'flexible' space can have
- 4 She thinks schools need a
- 5 Martha would like more
- 6 Which are your two favourite ideas from the proposal?

- a bicycle lanes in the neighbourhood.
- b to improve schools.
- c to help us understand her ideas.
- d wi-fi zone across them.
- e two different uses.
