

## Transportation Workers

**Transportation workers** use different types of transportation to move **goods** and **people** from one place to another.

They provide a very important **service**.

**Instructions:** Place each picture of the transportation workers below into the correct column.

| Air Transportation | Land Transportation | Water Transportation |
|--------------------|---------------------|----------------------|
|                    |                     |                      |
