Writing, formal writing

Your class has been looking at the role that social media plays in the lives of teenagers today, and you have carried out a survey among students in your school. Your teacher has asked you to write a report in which you explain what you found out in your survey.

In your report, you should explain what the students use social media for, what they think are the benefits of using it and whether they think it has any negative aspects.

Here are some comments from students in your class:

Now write a report for your teacher.

The comments above may give you some ideas, and you should also use some ideas of your own.

Write about 120 to 160 words.

You will receive up to 6 marks for the content of your report, and up to 9 marks for the language used.
