### **Reading**

Charities are organizations that help people in need. They provide food, clothes, and shelter to those who are poor or homeless. Charities also help sick people by giving them medicine and care. Some charities work to protect animals and the environment. People can support charities by giving money, donating items, or volunteering their time.

Many people like to help others through charities. When you help, you feel happy and make the world a better place. You can start by looking for local charities in your town or city. Ask your friends and family if they know any good charities to support.

Here are some ways to help:

1. **Donate Money**: Even a small amount can make a big difference.
2. **Give Items**: You can give clothes, books, or toys to those in need.
3. **Volunteer**: Spend your time helping at a charity event or food bank.
4. **Raise Awareness**: Tell others about the charity and its work.

Remember, every little bit helps. Working together, we can make a big change!

#### 1. Vocabulary Matching :

Match the words to their meanings.

- |              |                           |
