

# Saint Lawrence River

---

**Listen to the following dialogue and fill in the text with the missing words :**

**Teacher:** OK people, tell me about the Saint Lawrence \_\_\_\_\_  
and what you can do there if you're a \_\_\_\_\_.

**Student 1 (Ethan):** Ok, so the Saint Lawrence River is a river that goes  
through Montreal Québec and it is a \_\_\_\_\_ river. Tourists are  
known to go there to watch the \_\_\_\_\_.

**Student 2 (Natalie):** So, as Ethan said, the main \_\_\_\_\_ in the  
Saint Lawrence river is whale watching and you can take a cruise there and  
the Saint Lawrence river goes through Montreal and Quebec City and it's  
from Lake Ontario until the Atlantic. If you ever go whale watching, I've  
personally never gone but I know that it's pretty \_\_\_\_\_ to  
actually see a good chunk or a good part of the whale because the whales are  
so big and it's really hard to because they barely come above water, I guess.
