Hello Apples

Hello Apple,

Long time no see. How are you doing, my sister? I hope you are very well. It has been three months since I came to study at Khonkaen Technical College.

I have a lot of friends here. Most of them are boys, but there are still some girls here. My close friend is Duang. She is from Chaiyaphum. I used to go to Chaiyaphum many times, but Duang has never been to Chiang Mai. Well, I think it would be good to invite Duang to come to our home after we finish the first semester.

I have many classes. Most classes are basic subjects we need to learn before going to study the second year. One of my favorite classes is Basic machine tools. I think it is very fun, and I like my teacher. At college, there are many machines for students to learn. I also learn with the lathe. The lathe at college is similar to the lathe at our family factory.

By the way, it rains almost every day in Nakhon Pathom.

Say hello to Mom and Dad for me.

Miss everyone

Lek
