My Weekend Adventures

Last weekend, I had a great time! I've visited many places and done lots of interesting things. On Saturday, I've gone to the park with my friends. We've played football and had a picnic. The weather was perfect, and we've enjoyed the day a lot!

On Sunday, I've visited my grandmother. She's made my favorite cookies, and we've talked for hours. I've also helped her in the garden. I've planted some flowers, and she's told me many stories about when she was young. It was a very special day.

I've had a busy weekend, but it was so much fun! I've made many good memories with my family and friends.
