Question A

Daily Task: News Item Text

Arrange the following jumbled paragraphs into good and correct news item text!

News Item text 1

AI Art Generator Causes Controversy in Art World

A recent study by the Art Institute of Chicago found that 70% of art professionals believe AI will significantly impact the art industry within the next decade.

A new AI art generator has been released, capable of creating highly realistic and original artwork.

The rise of AI has sparked debates about the nature of creativity and authorship. Artists are concerned that AI-generated art could devalue their work and lead to job losses.

Extreme Weather Events Increase Globally

Climate change is widely considered to be the primary driver of these extreme weather events. Rising global temperatures and changing weather patterns are making these events more frequent and severe.

The Intergovernmental Panel on Climate Change (IPCC) has warned that if global temperatures continue to rise, we can expect even more extreme weather events in the future.

The frequency and intensity of extreme weather events, such as hurricanes, floods, and heatwaves, have increased significantly in recent years.

Space Tourism Becomes a Reality

For decades, space travel has been the domain of governments and astronauts. However, recent advancements in technology and a growing interest in space exploration have made space tourism a viable option.

SpaceX CEO Elon Musk has been a leading figure in the development of commercial spaceflight, and his company was responsible for the recent historic flight.

The first commercial space tourism flight has successfully taken place, carrying paying passengers to the edge of space.
