

WORK SHEET 2

QUARTER 3 ENGLISH

Today, let us talk about Providing Evidence to Support Opinion.

Everyone is entitled to have an opinion. Our opinions may be the same or different from others'.

If someone has to make an opinion, he/she may begin his/her statement with:

In my opinion

I think

I believe ...

I guess

For example:

In my opinion, another MECQ in Metro Manila is needed to slow down the increase of Covid-19 cases.

I think that the president's decision on Modified Enhanced Community Quarantine (MECQ) is the best in the country.

I believe many people will complain about transportation because of another Modified Enhanced Community Quarantine (MECQ).

I guess there will be another Social Amelioration Program (SAP) because of the MECQ.

Direction: Read the passage and put a check (/) mark for the evidence that supports the opinion below.

Passage:

COVID-19 has changed our way of life. During the lockdown, we were able to be with our loved ones longer than we normally did before the quarantine. Parents had time to cook for their children. Children got to spend watching television shows and playing games with their siblings. And most of all, we got the chance to help other people especially those who need food to survive.

Evidence:

- ___ 1. COVID-19 has changed our way of life.
- ___ 2. During the lockdown, we were able to be with our loved ones, longer that we normally did before the quarantine.
- ___ 3. Parents had time to cook for their children.
- ___ 4. Children got to spend watching television shows and playing games with their siblings.
- ___ 5. And most of all, we got the chance to help other people especially those who need food to survive.

Directions: Based on the picture, write YES if the sentence is evidence that supports the opinion below and NO if not.

OPINION: Pupils can still learn even during the pandemic.

- ___ 1. Parents can help the pupils read.
- ___ 2. There are books at home.
- ___ 3. The pupils are reading their books.
- ___ 4. There are limited learning materials at home.

Directions: Write TRUE if the statement is correct and FALSE if not. Write your answer in your notebook.

- _____ 1. Opinion is someone's belief or point of view.
- _____ 2. Someone's opinion is always the same as others.
- _____ 3. Evidence is something that is used to support an argument.
- _____ 4. Evidence gives explanation of why something is true or not true.
- _____ 5. Evidence is used to convince other people to believe in a certain opinion.

Directions: Read the passage and complete each sentence by providing evidence to the following opinions. Choose the letter of the correct answer .

John is a healthy boy. He eats nutritious food like fruits and vegetables. His parents make sure that they give him the right amount of food so that he stays fit and healthy. Junk foods like chips and sodas are not allowed in his family. Aside from a healthy diet, he is also involved in several physical activities like jogging and cycling around the village. We can do many things when we are healthy.

- 1. In my opinion, John is not sickly because _____.
- A. he is an obedient boy
- B. he eats nutritious food
- C. he lives with his parents
- 2. I think that John does not gain weight because _____.
- A. he does not like to eat
- B. his food is not delicious
- C. he eats the right amount of food
- 3. I guess John can't eat chips and drink soda because _____.
- A. he does not like chips and soda
- B. chips and sodas are not allowed in his family
- C. he does not have money to buy chips and soda

4. How do we know that John knows how to ride a bike?

A. because he has a bike

B. because his father taught him

C. because he is cycling around the village

5. I believe that staying fit and healthy is important because _____.

A. others are doing it

B. we can do many things

C. parents told us to do so
