## How Can You Divide Decimals By Powers of 10

Choose the correct answer:

1/  $134.4 \div \text{---} = 0.1344$

|           |           |           |           |
|-----------|-----------|-----------|-----------|
| A) $10^3$ | B) $10^2$ | C) $10^1$ | D) $10^0$ |
|-----------|-----------|-----------|-----------|

2/  $134.4 \div \text{---} = 1.344$

|           |           |           |           |
|-----------|-----------|-----------|-----------|
| A) $10^3$ | B) $10^2$ | C) $10^1$ | D) $10^0$ |
|-----------|-----------|-----------|-----------|

3/  $134.4 \div \text{---} = 13.44$

|           |           |           |           |
|-----------|-----------|-----------|-----------|
| A) $10^3$ | B) $10^2$ | C) $10^1$ | D) $10^0$ |
|-----------|-----------|-----------|-----------|

4/  $134.4 \div \text{---} = 134.4$

|           |           |           |           |
|-----------|-----------|-----------|-----------|
| A) $10^3$ | B) $10^2$ | C) $10^1$ | D) $10^0$ |
|-----------|-----------|-----------|-----------|

5/  $98.6 \div 1 = \text{---}$

|         |         |          |           |
|---------|---------|----------|-----------|
| A) 98.6 | B) 9.86 | C) 0.986 | D) 0.0986 |
|---------|---------|----------|-----------|

6/  $98.6 \div 10 = \text{---}$

|         |         |          |           |
|---------|---------|----------|-----------|
| A) 98.6 | B) 9.86 | C) 0.986 | D) 0.0986 |
|---------|---------|----------|-----------|

7/  $98.6 \div 100 = \text{---}$

|         |         |          |           |
|---------|---------|----------|-----------|
| A) 98.6 | B) 9.86 | C) 0.986 | D) 0.0986 |
|---------|---------|----------|-----------|

8/  $98.6 \div 1,000 = \text{---}$

|         |         |          |           |
|---------|---------|----------|-----------|
| A) 98.6 | B) 9.86 | C) 0.986 | D) 0.0986 |
|---------|---------|----------|-----------|

|                                                                                                                                                                                              |                                                                                                                                                                                                       |
