

Hi Nico,

How are you? I'm very excited because we're going on vacation tomorrow. We're going to the Bay of Fundy in Canada. We \_\_\_\_\_ the highest tides in the world there.

There will be two high tides and two low tides every day. When there is a high tide, 100 billion tons of water \_\_\_\_\_ into the bay. The water will be as high as a four-story building! We \_\_\_\_\_ tidal bore rafting on the water. I can't wait!

When there is a low tide in the Bay of Fundy, all the water will move out of the Bay, and we \_\_\_\_\_ the seabed. We will hunt for fossils in the sand, and we \_\_\_\_\_ the caves.

I'll be back in two weeks! See you soon!

Luis
