Unit 7 Extension

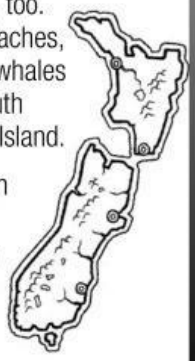

1 **Przeczytaj tekst. Jaka jest pogoda w Nowej Zelandii? Zakreśl właściwą odpowiedź: a, b lub c.**

a It's freezing. b It's wet and warm.
c It's always sunny.

It's farther than Italy and more expensive to fly there, but New Zealand is an amazing place for a holiday!

New Zealand is two beautiful islands with the Pacific Ocean to the east and the Tasman Sea to the west. The weather in New Zealand changes very quickly. It can be raining and windy in the morning and then warm and sunny in the afternoon. It's wetter than the UK, but it's hotter, too!

New Zealand is as big as Japan, but the population is only 4.5 million people, and there's lots to see. In the South Island you can visit mountain ranges or walk in the forests. The coast is very beautiful, too. You can walk along the long, sandy beaches, or you can take a boat trip and watch whales swimming in the ocean. I think the South Island is more beautiful than the North Island.

But the North Island is more exciting. In Auckland there are more than fifty volcanoes and you can walk to the top of them. It's often foggy at the top of the volcanoes, but on sunny days you can see a long way.
