Three people talking about the internet

Karen

My cousins live in Australia, and I miss them a lot. We use Skype once a week to share news and stay connected. My best friend works in Germany, so we chat online almost every day. The internet makes it easy and free for us to talk, unlike expensive phone calls.

Peter

I enjoy playing games online with friends, even with people from other countries. It's fun and exciting, but my work friends think gaming is bad for me. I understand the difference between games and real life, so I never do anything wrong. Games are a great way for me to relax and have fun.

Sue

I don't like playing games online, even though most of my friends do. I use the internet to find useful information and do my work. I also learn German by listening to songs, which is much more fun than my old French lessons. The internet helps me work better and learn new things easily.

E. WRITING

TOPIC: What can you do to stay safe when you go to school?

- How can you remember the way to school?
- What can you do if you get lost?
- How can you be safe on the street?

Example:

When I go to school, I always try to stay safe and follow some simple rules. First, I make sure I know the way to school well. I look at big buildings, shops, or parks to remember the road. I also write the school's name and address in my notebook, so I can check it if I forget.

If I get lost, I stay calm. I look for a police officer nearby and ask them for help. I tell them the name of my school and show them my notebook with the address written inside. If I have a phone, I can call my parents or teacher to let them know.

On the street, I always follow road safety rules to stay safe. I only cross the road at the pedestrian crossing or traffic lights. Before crossing, I look left, right, and left again to check for cars. I also listen carefully for any sounds of bikes or vehicles. When walking, I stay on the sidewalk and never run onto the road.

Staying safe is very important, so I always follow these steps.
