

Phrasal verbs – RUN 2

run after	run against	run over
run across	run down	run up
run away	run on	

Text 1: "The Importance of Staying Active"

Staying active is essential for maintaining both physical and mental well-being. Many people struggle to stay motivated, but once you get into the habit, it becomes part of your daily routine. However, for some, finding the time to exercise can feel like a challenge, especially when other responsibilities run after them.

One day, you might run across a piece of information or a new exercise routine that sparks your interest and motivates you to keep going. It's important to find what works for you and stick with it. Whether it's running, walking, or swimming, the goal is to stay engaged.

If you've been out of shape for a while, starting small can prevent you from becoming overwhelmed. It can be tempting to run away from exercise altogether when you feel too tired, but it's better to start at a comfortable pace. Doing too much too soon can be a mistake, as it might run down your progress instead of encouraging it.

Sometimes, people get too caught up in achieving specific results and forget to enjoy the process. Remember, fitness is about progress, not perfection. If you run up your goal too quickly, it can feel discouraging if you don't see results right away.

On the other hand, some people run over the chance to exercise altogether, convincing themselves they're too busy or tired. But in reality, working out can give you more energy and help clear your mind.

Fitness isn't just about physical appearance, it's about feeling better both mentally and physically. A workout can help you reduce stress, keep your energy levels up, and even improve your sleep.

1. Many people struggle to stay motivated when responsibilities _____ them.

 - A. running down
 - B. running on
 - C. running up
 - D. running over

Text 2: "Dealing with Obstacles in Life"

Life is full of challenges, and it's natural to encounter obstacles on the path to success. While it's easy to get discouraged, staying focused on your goals will help you push forward. Sometimes, you may feel like you're running after a brick wall, but there is always a way to find a solution.

When faced with a difficult decision, don't just run away from the challenge. Facing obstacles head-on is the best way to grow and develop your skills. If you feel overwhelmed, it's important to break the task into smaller steps and not let the problem run down your energy.

There will be moments in life when it seems like you're always running behind. It's important to understand that setbacks happen, but they don't define you. If you're working on a long-term project, sometimes it's okay if things run on slower than expected. Patience is key.

It's also important to learn how to deal with mistakes. Rather than dwell on them, use them as learning experiences. Don't let a mistake run over your motivation. Instead, learn from it, adapt, and keep moving forward.

If you feel like you're getting stuck, take a step back. Sometimes you need to run through the situation from a different perspective to see a better solution.

Some people are afraid of change and will run away from new opportunities. This is a mistake because embracing new challenges can lead to growth and open doors to new experiences. While it's tempting to remain comfortable, stepping out of your comfort zone is crucial for personal development.

Finally, when obstacles get tough, remember to take breaks and not let the challenges run over you. With the right mindset, you'll be able to overcome anything life throws your way.

1. What is the author's main message about dealing with obstacles?
 - A. Ignore them and wait for them to disappear
 - B. Confront them directly and stay focused on goals
 - C. Run away and avoid dealing with them
 - D. Let others handle the challenges for you
