My brother and I

My name is Richard. My family is quite small. It's just my parents, my brother and me. My parents' names are Alice and Jon, and my brother's name is Charles.

I'm 25 years old and Charles is 21. Charles lives with my parents, but I live in a flat. Our lives are very different, but we are good friends.

I work in a small design company. The company office is in the centre of the city. It's a good place to work and I like my job a lot. I get up early and go running before I start work. I feel relaxed after running and ready for work.

Charles is a student. He studies engineering at university. He wants to work in a big company when he finishes his course. He also wants to work in different countries around the world. He'd like to work in China or India. There are many jobs for engineers in those countries.

Charles and I meet for lunch every week at 1.00 p.m. We go to the same café because it has great food. We both like Italian food and we usually order pizza for lunch. Charles talks about his engineering course and I talk about my job.

We also enjoy music. I play the guitar and I'm in a band. Charles doesn't play the guitar but he likes listening to music, especially jazz music. My band plays in our favourite café on Friday evenings. My parents and Charles sometimes come to watch us play.
