Dividing by 5

To recall and use division facts for the 5 times table.

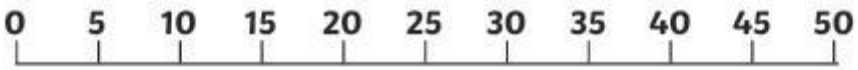

Toppings for an ice cream sundae cost **5p** each.

Look at how much each child spent and work out how many toppings they bought for their sundae. Fill in the number lines and calculations.

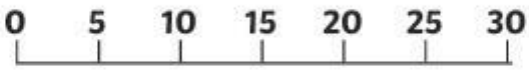

Sarah spent 30p.

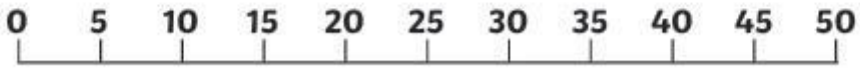

30 ÷ 5 = ☐ toppings

Malik spent 10p.

10 ÷ 5 = ☐ toppings

Abbas spent 5p.

45 ÷ 5 = ☐ toppings
