

Answer the exercise using passive voice in present.

## A green energy vision

The Persian Gulf \_\_\_\_\_ (know) for its fossil fuel riches. Bahrain has specialized in refining oil that \_\_\_\_\_ (produce) by its neighbors. Qatar is much larger than Bahrain. This country has huge reserves of natural gas and oil. Most of the government's income \_\_\_\_\_ (provide) by these fossil fuel resources.

Subsidies \_\_\_\_\_ (provide) to consumers in most Persian Gulf countries to keep energy prices low.

The Bahrain World Trade Center (BWTC) \_\_\_\_\_ (locate) in the financial district of the capital and is an example of clean energy vision. Traditional Arab wind towers \_\_\_\_\_ (use) for natural air movement. These towers \_\_\_\_\_ (find) on the tops of mosques and homes.

The BWTC design includes two 50-story office towers that \_\_\_\_\_ (connect) by bridges. Three wind turbines \_\_\_\_\_ (install) on the bridges.
