# Healthy living?

<sup>1</sup>*Some* doctors think we eat <sup>2</sup> \_\_\_\_\_ many unhealthy snacks. For example we eat a <sup>3</sup> \_\_\_\_\_ of burgers and hot dogs because they're quick to eat and they don't cost <sup>4</sup> \_\_\_\_\_ money, and not <sup>5</sup> \_\_\_\_\_ healthy food. Schools are trying to encourage healthy eating habits. In some schools there aren't <sup>6</sup> \_\_\_\_\_ machines that sell snacks – not one! The students can't bring <sup>7</sup> \_\_\_\_\_ chocolate or crisps into school! They sell a <sup>8</sup> \_\_\_\_\_ of healthy food in the cafeteria. There is always <sup>9</sup> \_\_\_\_\_ salad, and a lot of fruit and vegetables, but unfortunately <sup>10</sup> \_\_\_\_\_ enough students eat them! <sup>11</sup> \_\_\_\_\_ students at these schools – not all – go out at lunchtime and don't buy <sup>12</sup> \_\_\_\_\_ healthy food. Instead they buy food like chips from local shops! So, what do you think we should do?
