

# 1. DEFINE PROBLEM

## ANALYSIS OF OPERATION ENVIRONMENT

## 2. MISSION ANALYSIS

### RISK MATRIX

Threat, Impact, Likelihood

| THREAT | IMPACT | LIKELIHOOD |
|--------|--------|------------|
| 1.     | C      | 3          |
| 2.     | C      | 3          |
| 3.     | C      | 3          |

### Risk Matrix

|                                      |              |   |   |   |
|--------------------------------------|--------------|---|---|---|
| ↑<br>I<br>M<br>P<br>A<br>C<br>T<br>↑ | A            |   |   |   |
|                                      | B            |   |   |   |
|                                      | C            |   |   |   |
|                                      |              | 1 | 2 | 3 |
|                                      | →LIKELIHOOD→ |   |   |   |

### Threat Priority

| PRIORITY | THREAT | LEVEL |
|----------|--------|-------|
| 1        |        | LOW   |
| 2        |        | LOW   |
| 3        |        | LOW   |

### 3. COURSE OF ACTION DEVELOPMENT WH QUESTIONS

| QUESTIONS /<br>POTENTIAL<br>COA |  |  |
|---------------------------------|--|--|
| WHO                             |  |  |
| WHAT                            |  |  |
| WHEN                            |  |  |
| WHERE                           |  |  |
| HOW                             |  |  |
| WHY                             |  |  |

### 4. COURSE OF ACTION SELECTION ANALYSIS OF ADVANTAGES AND DISADVANTAGES

| QUESTIONS /<br>POTENTIAL COA |  |  |
|------------------------------|--|--|
| ADVANTAGE                    |  |  |
| DISADVANTAGE                 |  |  |
| OUTCOME                      |  |  |

### 5. EXECUTION
