A Tasty Vegetarian Restaurant

① There is a vegetarian place who is located downtown and it is my favorite restaurant in the city. It has great food and a casual atmosphere.

② Generally, I'm not a fan of vegetarian food because it's usually not tasty. But the cooks at this vegetarian place are skilled and creative. Their food is not only delicious, but it tastes better than most meat dishes I have tried. I especially like their fried bean sandwich. ③ In fact, I've try everything on their menu, and I have never being (A) (satisfied / disappointed). All of their appetizers, main dishes, and desserts are amazing. ④ I also like the atmosphree in this place. The restaurant is located in a fashionable area, but the inside is casual. ⑤ So you can wear whatever you like and still feel comfortable there.

⑥ The food and (B) (atmosphere / location) are why this vegetarian restaurant is my favorite. I recommend it to both vegetarians and non-vegetarians.
