to (7x) from for of (2x) with (2x) those (2) in on (2x)

Natural disasters, illnesses, and charity are deeply intertwined. When a natural disaster strikes (1) \_\_\_\_\_ a region, people are forced to struggle (2) \_\_\_\_\_ survival. They are in need (3) \_\_\_\_\_ food, water, shelter, and medical assistance. In such moments, charitable organizations come (4) \_\_\_\_\_ aid, raising funds and providing support to the victims.

Epidemics, in turn, can lead (5) \_\_\_\_\_ humanitarian crises that require immediate intervention. Medical workers work (6) \_\_\_\_\_ exhaustion, trying to stop the spread of diseases and save lives. Charitable foundations collect donations to provide medicine and equipment to those who are fighting (7) \_\_\_\_\_ illness.

But charity is not just a reaction (8) \_\_\_\_\_ emergencies. It also plays an important role (9) \_\_\_\_\_ preventing diseases and disasters. Charitable organizations fund research (10) \_\_\_\_\_ developing new treatments and technologies that can help (11) \_\_\_\_\_ protect people (12) \_\_\_\_\_ dangers. They work (13) \_\_\_\_\_ educating the population, raising awareness (14) \_\_\_\_\_ the importance of prevention and healthy lifestyles.

Each of us can contribute (15) \_\_\_\_\_ charity by supporting organizations that help (16) \_\_\_\_\_ those in need. Together, we can make the world a better place by helping (17) \_\_\_\_\_ those who have faced (18) \_\_\_\_\_ difficulties.
