A. However B. the C. many D. it

***Read the following passage and mark the letter A, B or C on your answer sheet to indicate the correct answer to each of the questions.***

Large cities often have problems that small towns and rural areas do not have. Two of the biggest problems are heavy traffic and the pollution that cars create. Of course, traffic problems and pollution are not only found in big cities. However, the higher populations and larger number of cars on the roads in cities can make the problems happen more often and with more noticeable effects.

One of the most common traffic problems the large cities have is congestion. As the population of a city **increases**, so does the number of cars on the road. Cities cannot always improve the number and size of their roads and highways to keep up with the number of cars. The result is traffic congestion, or traffic jams.

When traffic jams happen, cars that are stuck in the congestion continue to run their engines. This creates pollution and is a big problem. Pollution causes health problems for the people in cities and also hurts the environment.

Question 23: **Where do traffic problems and pollution frequently happen?**

A. in small towns B. in big cities

C. in rural areas D. in remote villages

Question 24: **According to the passage, what causes traffic congestion in big cities?**

A. A lot of city dwellers B. Too many cars on the roads

C. Careless drivers D. Less traffic signs on the streets

Question 25: **Which word is opposite with "increase" in the meaning?**

A. go up B. decrease

C. spread D. rise

Question 26: **By what is the high number of cars caused?**

A. urban planning B. traffic congestion

C. environmental pollution D. the population

Question 27: **Which of the followings is NOT true?**

A. Only big cities have the problem of pollution.

B. Traffic jams cause pollution.

C. Pollution is a major problem in big cities.

D. Pollution causes health and environmental problems.
