Title: The Mysterious Island

Read the passage below and answer the questions that follow.

One bright morning, a group of explorers set sail on a grand adventure. Their destination was an uncharted island that had appeared on ancient maps but was never confirmed to exist. As they approached the island, a thick fog surrounded their ship, and the sea became eerily calm. When the fog lifted, they saw towering cliffs covered in lush greenery and heard the distant call of exotic birds.

Stepping onto the shore, the explorers noticed unusual plants and enormous footprints in the sand. They followed the footprints into the dense jungle, where they discovered ruins of an ancient civilization. Mysterious symbols were carved into the stone walls, and the air was filled with the scent of wildflowers. Just as they were about to examine the carvings, a deep growl echoed through the trees. Something—or someone—was watching them.
