4.A. crops	B. animals	C. species	D. plants
5.A. making	B. maintaining	C. releasing	D. using

F/ Read the passage and do the tasks.

People all over the world today are beginning to hear and learn more and more about the problem of pollution. Pollution is caused either by man's release of new and often artificial substances into the environment, or by releasing increased amounts of a natural substance, such as oil from oil tankers into the sea.

Whatever its underlying reasons, there is no doubt that much of the pollution caused could be controlled if only governments, companies, and individuals would make more efforts. In the home, there is an obvious need to control litter and waste. Foods wrapped up three or four times in packages all have to be disposed of; drinks are increasingly sold in bottles or tins which cannot be reused. This not only causes a fitter problem, but also is a great waste of resources, in terms of glass, metal and paper. Advertising has helped this process by persuading many of us not only to buy things we don't need, but also to throw away much of what we have bought. Pollution and waste combine to be a problem everyone can help to solve by cutting out unnecessary buying, excess use and careless disposal of the Products we use in our daily lives.

1. The main cause of pollution mentioned in the passage is _____.

A. the release of artificial or natural substances into the environment

B. the production of new industrial goods

C. increased amounts of a natural substance

D. increasing population and their needs to buy more products

2. Much of the pollution could be controlled if only _____,

A. people would pay more attention to their waste B. governments would take effective measures

C. all sides concerned would make more efforts D. farmers would use fewer natural resources

3. Food packages, bottles and tins for drinks can cause _____.

A. more and more air and water pollution B. both a litter problem and a waste of resources

C. the price of the products to rise greatly D. the advertising industry to make more profit

4. What does the phrase "disposal of" in the last sentence probably mean?

A. using up B. finding a solution to C. cutting out D. getting rid of

5. Which of the following can help solve the problem of pollution?

A. Cutting out unnecessary buying B. Eating and drinking less

C. Reducing excess use D. Controlling litter and waste
