

Name:

Class:

U5: INVENTIONS

Task 1: Read the statements below and decide if they are True (T), False (F), or Not Given (NG) based on the passage.

The Impact of Modern Inventions

Inventions have changed the way people live, work, and study. Among the most important inventions of recent years are the smartphone and the laptop. These devices have made life easier by helping people communicate, complete tasks, and access information quickly.

A smartphone is a small but powerful device that allows users to call, text, and use the internet anywhere. It is especially useful for students because they can use it to search for information, set reminders, and stay connected with their teachers and classmates. Meanwhile, a laptop is a larger device that is more suitable for tasks like writing essays, creating presentations, and attending online classes.

These inventions have helped people improve the way they work and study. Employees can now complete projects from home, and students can learn new things outside the classroom. Online learning has become more popular because of these devices, making education more accessible for everyone.

However, while technology is helpful, it is important to use it wisely. Spending too much time on a smartphone or laptop can reduce productivity. Instead, people should use these tools in a balanced way to make the most of their benefits.

In conclusion, modern inventions like smartphones and laptops have made life easier by helping people communicate, work, and study more efficiently. When used correctly, these tools can greatly improve our daily lives.

Name:

Class:

U5: INVENTIONS

Task 1: Mark each statement as T (True) or F (False) based on the passage.

1. Using smartphones and laptops too much can improve productivity.

T

F

2. People should use smartphones and laptops in a balanced way to get the most benefits.

T

F

3. Smartphones help people communicate by allowing them to call, text, and use the internet.

T

F

4. Laptops are not useful for employees working from home.

T

F

5. The main idea of the passage is that modern inventions like smartphones and laptops have made life more difficult.

T

F

Name: _____

Class: _____

U5: INVENTIONS

Task 2: Read the question carefully and choose the correct answers

1. What are two important inventions mentioned in the passage?

- a) Television and radio
- b) Smartphone and laptop
- c) Bicycle and train
- d) Microwave and refrigerator

2. How do smartphones help students?

- a) They help students cook meals
- b) They allow students to search for information and stay connected with teachers and classmates
- c) They make students play more video games
- d) They replace the need for books

3. Why is a laptop more suitable for tasks like writing essays?

- a) It has a larger screen and a keyboard for easier typing
- b) It is smaller than a smartphone
- c) It can only be used for entertainment
- d) It does not require the internet

4. How have inventions improved the way people work and study?

- a) They allow employees to work from home and students to learn online
- b) They make people spend more time outside
- c) They have no impact on work and study
- d) They make school less important

5. What is one reason online learning has become more popular?

- a) It is more difficult than traditional learning
- b) It requires no technology
- c) Smartphones and laptops make education more accessible
- d) It is only for young children

Name: _____

Class: _____

U5: INVENTIONS

Task 3: Match each word with its correct definition.

Inventions

Smartphone

Laptop

Communicate

Suitable

To share thoughts, ideas,
or messages

A portable computer for
work and study

A new creation that makes
life easier

A small device used for
calling, texting, and using
the internet

The ability of something to
be right for a purpose.

The ability of something to
be right for a purpose.

The process of learning
new things
