

Comparing Fractions Worksheet

Use the signs greater than $>$, less than $<$, or equal to $=$

The alligator wants the bigger piece!

Remember: the smaller the number, the bigger the piece :-)

Example:

$\frac{2}{3}$ is greater than $\frac{1}{6}$

- One is broken into 3 parts and the other is broken into 6 parts.
- The *thirds* are bigger than the *sixths*.

$\frac{1}{2}$
 $\frac{1}{2}$
 $\frac{1}{2}$

$\frac{1}{3}$
 $\frac{1}{3}$
 $\frac{1}{3}$

$\frac{1}{2}$
 $\frac{1}{2}$
 $\frac{1}{2}$
