Activity: Discover the Hidden Meaning

📌 **Strategy:** Inference from Semantic Context

📌 **Objective:** Develop the ability to infer implicit information based on the meaning of key words and expressions in a text.

Instructions:

Read each text fragment and select the option that best expresses the correct inference based on the context.

Fragment 1

"Ana walked into the interview room with slow steps, wiping her sweaty hands on her skirt. She took a deep breath before sitting down, avoiding the interviewer's eyes."

1. What can be inferred about Ana?
   A) She is calm and confident.
   B) She feels nervous and anxious.
   C) She is happy to be at the interview.
   D) She doesn't want to attend the interview.

Fragment 2

"Tomás looked at his plate and sighed. He pushed his food around with his fork without taking a bite, while his mother watched him with concern."

2. How does Tomás feel?
   A) He is hungry.
   B) He has no appetite or is sad.
   C) He enjoys his food.
   D) His food is delicious.

Fragment 3

"Sofía's boss called her to his office with a serious tone. When she came out, she didn't say a word and went straight to her desk, her head down."

3. What can be inferred about what happened in the office?
   A) Sofía received good news.
   B) Sofía had an uncomfortable or negative conversation.
   C) Sofía was promoted at work.
   D) Her boss was proud of her.
