

TA12.GK2. Part 3. Speaking + Writing 3

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

1.

- a. AI-powered algorithms are now capable of generating realistic images, texts, and even music.
- b. How exactly does artificial intelligence create such outputs?
- c. The key lies in deep learning, a subset of machine learning that trains algorithms to recognize patterns in large datasets.
- d. Wow, that sounds amazing! Does this mean that AI is becoming creative?
- e. Yes, it can produce content that mimics human creativity, but it still lacks the true understanding and emotions that come with human artistry.

- A. d – b – a – c – e
- B. a – b – c – d – e
- C. b – d – a – e – c
- D. a – d – b – e – c

2.

- a. How do you think AI will impact the creative industry in the long term?
- b. It's certainly revolutionizing content creation. AI can help artists and musicians produce work more efficiently.
- c. I believe AI will change the way we interact with art, but it might also replace some creative jobs.
- d. It could assist in the creative process but it's hard to say if it will ever fully replace human creativity.
- e. That's an interesting point. It seems AI will be both an assistant and a competitor in the world of creativity.

- A. c – d – b – e – a
- B. a – b – c – e – d
- C. e – c – a – b – d
- D. b – a – c – e – d

3.

- a. With the rise of social media influencers, how do you think traditional media will evolve?
- b. Influencers have become powerful in shaping trends and opinions, creating a shift in how we consume media.
- c. Traditional media outlets have had to adapt by embracing digital platforms and social media.
- d. It's clear that traditional media is facing stiff competition from influencers and new digital media channels.
- e. So, will traditional media eventually become obsolete?

- A. a – b – c – d – e
- B. c – b – d – a – e
- C. b – a – d – e – c
- D. d – a – c – b – e

4.

- a. I was watching a documentary on wildlife conservation the other day, and it made me think about the future of endangered species.
- b. There is a growing recognition of the importance of protecting biodiversity and preserving natural habitats.
- c. This documentary really highlighted the urgent need for large-scale conservation efforts to protect these species from extinction.
- d. It's concerning to see how deforestation and climate change are contributing to the decline of many species.
- e. The efforts to restore ecosystems and establish protected areas are crucial in ensuring a healthy planet.

- A. a – d – b – c – e
- B. c – b – e – d – a
- C. e – d – b – a – c
- D. b – a – c – e – d

5.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

- a. One of the most critical challenges in wildlife conservation is funding.
- b. Without sufficient resources, many conservation programs struggle to operate effectively.
- c. Some countries are trying to tackle this issue by involving local communities in conservation efforts, which can be more sustainable.
- d. Governments and international organizations need to increase investment in conservation if we are to protect

endangered species.

e. It's essential to raise public awareness about the importance of conservation funding.

A. b – d – a – c – e

B. d – a – b – e – c

C. e – c – d – a – b

D. a – b – d – c – e

6.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

a. We are witnessing a significant shift in the way news is consumed, especially with the advent of online platforms.

b. The rise of fake news and misinformation on these platforms has become a pressing issue.

c. The role of journalists has also evolved, as they are now expected to verify information in real-time.

d. To combat this, media organizations are increasingly relying on fact-checking tools and AI to ensure accuracy.

e. However, it's important to note that social media is still a crucial tool for spreading information globally.

A. b – a – c – e – d

B. d – a – b – c – e

C. e – d – a – b – c

D. a – b – c – e – d

7.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

a. Climate change is having a profound effect on wildlife habitats, and some species are struggling to adapt.

b. It's crucial that conservationists use the most up-to-date data and technology to track the impact of climate change.

c. For example, many marine species are facing habitat loss due to rising ocean temperatures.

d. Artificial intelligence is helping scientists monitor and analyze changes in animal behavior and ecosystems.

e. The challenge lies in integrating technology into existing conservation efforts while ensuring its effectiveness.

A. a – b – e – d – c

B. c – d – b – a – e

C. e – b – d – a – c

D. b – a – c – e – d

8.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

a. The integration of AI into journalism has sparked debates about the future of the profession.

b. AI tools are being used to write basic reports and analyze data, but they lack the creativity and investigative skills of human journalists.

c. While AI can assist in certain tasks, I believe that human input will remain essential in journalism.

d. It's clear that AI is transforming the industry, especially in terms of efficiency and data processing.

e. Nevertheless, it's unlikely that AI will fully replace human journalists any time soon.

A. b – a – d – e – c

B. a – c – d – b – e

C. d – b – a – c – e

D. e – d – b – a – c

9.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

a. Artificial intelligence is playing an increasingly significant role in modern wildlife conservation efforts.

b. For example, AI is used to predict the movement patterns of endangered species and to identify areas at risk of poaching.

c. While AI offers tremendous potential, it is important to remember that it is only one tool among many.

d. Conservation efforts should continue to involve local communities and other conservation technologies.

e. As technology advances, AI will undoubtedly become a crucial partner in the fight against biodiversity loss.

A. c – b – a – e – d

B. e – a – b – d – c

C. b – a – e – d – c

D. a – b – e – c – d

10.

Mark the letter A, B, C, or D to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions.

a. The ethical implications of AI in wildlife conservation are a topic of considerable debate.

b. Some argue that while AI can assist in monitoring wildlife, it cannot replace the need for human engagement and ethical considerations.

c. Others believe AI should be implemented more extensively to solve conservation challenges.

d. There is concern that relying too heavily on AI could lead to a detachment from the natural world and reduce human involvement in conservation.

e. It's crucial that AI is used thoughtfully and responsibly to ensure that it benefits wildlife conservation efforts in the long term.

A. b – c – a – e – d

B. e – b – a – c – d

C. d – a – b – e – c

D. a – e – b – d – c
